

Environmental Advisory Committee

2/27/18 Meeting Minutes

Attendees:

Chris Bish

Mike Hanford

Mary Beth Oberg

Joe Poppitti

Matt Sabo

Garden Way - Work session scheduled 3/17

Newsletter:

Joe submitted an article on the metal recycling container for the Spring Newsletter

Mike will prepare an article for Fall on KT Recommended Plants list and planting natives in general

Priorities for 2018:

March - Mike will prepare a standard set of priorities and standard expectations for development from the EAC perspective. We will review/revise and can provide this to the PC secretary and to new applicants.

April - Would like to invite the Township Engineer to the April EAC meeting (Mike O'Brien, can you help with this?). Purpose - to discuss what we could accomplish with a 2-4 times per year meeting between the EAC and Engineer to discuss their observations on site visits during construction. Chris Bish will turn this into a recommendation and request to the Supervisors.

May - Matt will prepare a list of suggested standard operating procedures for conditional use hearings in the Township. We will review internally with the EAC before proposing a review with the PC with intention of a joint recommendation to the Supervisors and Solicitor.

June - Plan for a brainstorming session on other environmental priorities - Emerald Ash Borer, trails, engagement with sustainable development.
